United States

4 Month acceleration program in Buenos Aires

20-30 tech entrepreneurs in each cohort

\$25,000 initial seed investment
Follow-on co-investments of up to \$1 MILLION

Network of +210 mentors/co-investors

NXTP Lab's "Happy Problem"

The performance of the fund's portfolio of tech startups has exceeded its performance projection by a wide margin, as only 20% of its portfolio companies have been written off, instead of the anticipated 60%. Therefore, the fund has needed to raise additional capital for follow-up investments.

80% of the tech startups supported by the fund are growing

IMPACT

397 entrepreneurs graduated from accelerator program

Portfolio companies experienced \$35.5 MILLION revenue growth

and raised +\$120 MILLION in additional capital

4 Venture Capital Ecosystem

IMPACT IN EACH DIMENSION WAS SCORED ON A SCALE OF 0-4 BASED ON A NON-RANDOM SAMPLE OF 23 PORTFOLIO COMPANIES SELECTED FOR THE ANALYSIS

ALL FIGURES CURRENT AS OF LATE 2015

HIGHLIGHTED INVESTMENTS

ZOLVERS

Zolvers is a regional online marketplace for hiring pre-screened home cleaning and home repair professionals. As of August 2015 it served approximately 40,000 customers in Argentina, Chile, Mexico, and Colombia, and had approximately 10,000 individual service providers in its database. Because of its convenient platform and thorough screening process, Zolvers enables its service providers to find more stable and convenient work at higher hourly rates, helping some of them to double their monthly income.

SATELLOGIC

Satellogic is an Argentinian aerospace startup developing a constellation of nano-satellites to provide real-time high resolution satellite imaging of the entire globe, with the goal of improving data-based decision making in industries such as oil and gas, agriculture, and infrastructure. By mid-2015 the company had launched its first three nano-satellites, and planned to have a 16-satellite constellation in orbit by 2016.
